

Major General Gurdeep Narang
Dean Student Affairs

Dear Students, Welcome to Crescent Institute of Science & Technology

At Crescent, You will be challenged and transformed by our robust and all encompassing curriculum, Interactive teaching methods, research, innovation, outreach programmes and above all our strong spirit of community.

Being a member of this beautiful Crescent family provides each of us the opportunity to learn from each other and practice the responsibilities that are required for a community to be safe and welcoming to each of its members. Achieving this is hard work that requires patience, critical thinking, compassion, and a commitment to the idea of community. I invite all of you into a partnership in this important process. Everyone benefits when we work together to create an inclusive and engaging campus. We are committed to helping you navigate in a manner that exposes you to all the Institute has to offer. We will also challenge you to consider different perspectives and try new experiences as you progress toward graduation & post graduation. Our goal is to promote your individual growth, facilitate constructive engagement in our community, and encourage the development of life skills that will help you to be successful well beyond your time on campus.

As the Dean Student Affairs, my job is to lead the Office of Student Affairs in supporting the most valuable asset the Institute has: **our students!** My office will provide a proactive and responsive ways of enhancing the quality of students' life. Any issue that concerns you as a student concerns my office and we pledge to work with you through them during your studies at Crescent Institute of Science & Technology. We will do this through support, provision of resources, advocacy, innovative programmes and needed referrals for students and all stakeholders. It will be our constant endeavour to empower students to be global citizens and to enhance the overall student experience in serene and safe campus.

Go on, Study hard, make friends, engage in some sports, and other diverse extra curriculum activities to help discover yourself and build your personal qualities. I wish you great success in your studies at Crescent.
