Team has a strong peer input feedback mechanism in place. Each team member must be willing to supply self-evaluation of the team's performance.

Managing unacceptable performance:

If at any time during the performance cycle the employee is not performing to the level agreed upon in the performance plan, the employee is placed into an opportunity to demonstrate performance, or any other applicable performance improving tool in an attempt to increase the employee performance up to an acceptable level.

Performance Summary

The performance summary is a consolidation, discussion, and acknowledgement of employee accomplishments and effectiveness throughout the performance cycle.

- Provides an assessment of actual achievements based on the outcomes and expectations contained in the performance plan.
- Includes a synopsis of formal feedback received during the performance cycle.
- Contains highlights of developmental activities undertaken during the period.

The performance summary represents the review of record for the performance cycle.

Purpose:

Performance summaries may be used for:

- Identifying developmental needs.
- Determining compliance with the agreed upon performance plan.
- Analyzing individual [or team] performance.
- Basis for individual recognition.
- Basis for team acknowledgement/recognition.
- A point of consolidation of feedback from the performance cycle.

Performance summaries may not be used for:

- Merit promotion eligibility.
- Reduction in force.
- Automatic triggers for increases to base pay and/or cash awards.

Frequency:

Typically the performance summary is an annual process of documentation and discussion between a HOD's and an employee. This discussion shall occur within 30 days from the end of the performance cycle.

There are several conditions under which a performance summary may occur more frequently. They include instances where

- The performance plan represents a cycle shorter than a year.
- The performance plan changes significantly during the year.
- An employee transfers to another job, department, section, team, division, etc.
- An employee is on a temporary basis for a minimum of 90 days.
- An employee's HOD transfers to another job within the institution or leave BS Abdur Rahman Crescent Institute of Science and Technology

Time under performance plan:

An employee must be in his or her current performance plan for 90 days to receive a performance summary. This 90-day requirement also applies to details. If a performance cycle includes a detail of 90 days or greater, the performance summary for the performance cycle may include the performance summary for the detail period.

Documentation:

A narrative discussion of the individual performance compared to the outcome(s)/expectations(s) as spelled out in the performance plan. The summary is a narrative describing employee accomplishments of the agreed upon outcomes/expectations in the performance plan. The relationship of the narrative and the plan represents the employees' annual performance review.

Recordkeeping requirements:

The performance summary of record shall be maintained in the Personnel File.

Relationship to performance based pay systems:

The performance summary may be used as a factor in determining eligibility for a pay increase in a performance based pay system.

Application to Teams:

Teams can receive performance summaries; however, the accomplishments of a team cannot be a primary or secondary outcome of an individual's performance plan. Additionally, a team performance summary does not eliminate the requirement for an individual performance summary.

Requirements for departing / transferring employee:

A departing/transferring employee should provide a performance summary for each of his or her employees before leaving. In a situation where a employee leaves his or her position within the last 90 days of a performance cycle, the departing/transferring employee should close out the current performance cycle by completing and providing a performance summary for each of his or her employees. As a result, the new performance cycle may cover up to 15 months.

Recognition

A means of acknowledging employees for sustained outstanding performance/service and providing incentives to continue provide outstanding performance/service. Recognition should be linked to performance outcomes. For example, employees should be recognized/rewarded for being results-oriented and customer-focused. Other contributing factors could be increased morale, contribution to team cohesiveness, contribution to the success of the

performance management process, etc. Recognition does not necessarily have to be linked to a bonus system, but can be for e.g.; time off, chance to attend conferences of choice etc.

Compliance:

At an appropriate time during the performance cycle, upward feedback will be used to assess manager compliance in supplying performance feedback based on the agreed upon outcomes/expectations found within the managerial performance plan. The Dean may however, make a record of the counseling session to allow for an assessment of the employee's performance record, should this be necessary at the time, and with the employee's knowledge and understanding thereof, formulate a plan of corrective action.

- Investigate and identify the problem area(s)
- Communicate this to the individual concerned, and jointly agree on the appropriate plan of action in order to resolve the matter. If deemed necessary and relevant, norms should be established by arranging appropriate task lists and the time duration allowed for the completion of each task;
