

## Report on Clutch Design Guest lecture

A guest lecture by Mr. E. Venkatachalam, Manager, Clutch Design, Valeo India Private Ltd., on "Principles of Clutch Design - Recent Trends" was organized by the department of mechanical engineering on 29.10.2018.

Two sections of V semester A and B sections of Mechanical Engineering students attended the guest lecture and got benefited.

The resource person gave a real-time exposé and share his experience on the challenges and solutions in clutch design for different applications from two-wheelers to high torque quarry vehicles. The students interacted with the resource person in designing clutches for SAE Baja Vehicles, all-terrain vehicles, and farm equipment and their challenges. The students and staff enjoyed the session with continuous interaction with the resource person and thanked him.
