

a. Career Counselling.

The plus two students and diploma students are uncertain about which course to choose following their higher secondary education. It is because of the lack of opportunities & exposure to the various universities and the courses offered in those universities and also the employment opportunities available in industries after completing the particular courses. This programme is aimed to provide a clear picture regarding career opportunities for their future endeavors.

In this regard, ECE Department has conducted a one day “Career Guidance” program for plus two and diploma students on 7th April 2018.

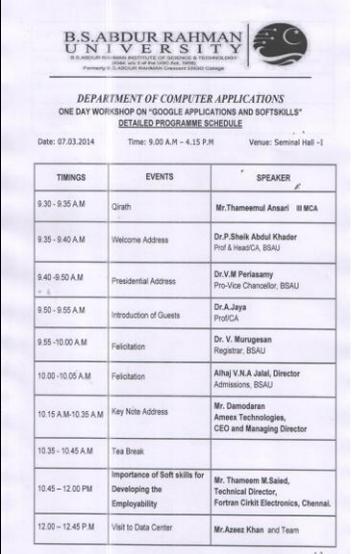

Name of the School/Department: SCIMS/Information Technology

Year	Name of the scheme	Name of the topic	Speaker Name	Document reference	Number of students benefitted/attended/participated by career counseling/competitive exams activities
