MOOT PROPOSITION

PART A

PRIMADOR is a democratic nation retaining rich heritage and diversity, 38 per cent of the PRIMADOR's geography is surrounded by forest land, home to rare species, majestic trees and indigenous people. The soil of the PRIMADOR is rich with minerals having high commercial value. The PRIMADOR nation has been called the 'green abode' of the world. PRIMADOR'S major source of income was agriculture. During the year 2018, the Democratic Political Alliance (DPA) won the elections throughout the nation with a thumping majority and formed governments in almost every state except the state of TREELAND.

The state of TREELAND is world famous for its dense forest land which is mystic and sacred to the people of the state. TREELAND is 45 per cent forest land and the people who reside there belong to an indigenous community called ALOHA. The outer world is very much enthusiastic about the ways of ALOHA's lifestyle especially their expertise in ancient ways of natural treatment called 'ALO VEDA'. ALO VEDA is associated with a mode of treatment which involves herbs and certain rare plants which are produced naturally in the forest. ALO VEDA has unique methods in terms of treatment. The ALOHA community leads a secluded life very much depended on the forest. They believe in the principle that their life begins in the forest and ends in the forest. The young population of TREELAND is not only in harmony with their culture but also ardently believes that proper education can revolutionise them and can help their community to achieve a better life. Certain young people with the help of some NGO[s] had gained college level education in different disciplines and worked in the grass root level to help their community.

'TREE PEOPLE' is a non-profit organisation formed by the educated youth of TREELAND to serve their community and uplift their brothers and sisters to a better future. The TREE PEOPLE received welcoming recognition and they managed to drive funds from various sources that including international organisations.

PART B

During the year 2018, after the major win in the election, the DPA party formed governments in all the states of PRIMADOR except TREE LAND. The people of TREE LAND are deeply

affiliated with another political party under the name TREELAND TRIBAL PARTY (TTP) and for decades the TTP is the only party that gain the majority in the state and forms government. All the policies and measures of the TTP Government align with the culture and conscience of the TREELAND and ALOHA community. The DPA is the opposition party of the TREE LAND state.

In 2020, the DPA Government promulgated legislation under the name PRIMADOR Forest (Conservation) and Developmental Activities Act of 2020 (PFCDA). The Preamble of the PFCDA is as follows:

"An Act to provide for the conservation of forests and matters of developmental activities connected therewith or ancillary or incidental thereto"

Section 6 of the PFCDA states as follows:

6. Dereservation of forest or usage of forest land for developmental purposes.

Notwithstanding anything contained in any other law for the time being in force in a state, the Central Government or other authorities shall make, any order directing -

1. that any reserved forest (within the meaning of the expression "reserved forest" in any law for the time being in force in that state) or any portion thereof, shall cease to be reserved,
2. that any forest land or any portion thereof may be used for any non-forest purpose.

Section 16 of the PFCDA states as follows:

16. Licence of Practice and Registration of Additional Qualifications.

Notwithstanding anything contained in any other law for the time being in force in a state, all traditional practitioners, who conduct treatment shall acquire a licence of practice.

Rule 4(2) and 4(3) of the PFCDA Rules states as follows:

4(2). Licence of Practice is for a period of 15 years and must be renewed after expiry.

4(3). All traditional practitioners applying for the licence of practice must mandatorily attend two years of in-house training on allopathic medicine in a government medical college.

The DPA Government claimed the promulgation of the PFCDA as a revolutionary measure to improve industrial ventures and thereby cultivate new developments and give more job opportunities to the people of PRIMADOR. This measure has received a welcoming response in every state of PRIMADOR except the state of TREELAND. The people of TREELAND feared that this will destroy their cultural ethos and devastate their forest land.

The youth of TREELAND under the aegis of TREE PEOPLE started organizing protests against the new law and the same started receiving attention even on a global scale. The traditional ALO-VEDA practitioners also joined in the protest with the claim that the new law would destroy the forest and thereby end their life-means since the practice of ALO-VEDA is deeply associated with the forest.

PART C

In 2021, PRIMO CORP a multinational company entered into a contract with the TTP Government and invested 100 million Primador Rupees in TREELAND for establishing various business concerns. As per the terms of the Contract, the TTP government shall provide land and other aids to the Company and the Company shall give job opportunities to the people of TREELAND. After the promulgation of the PFCDA, the PRIMO CORP tabled a business proposal before the TTP government to improve the tourism sector of the TREE LAND. As per the proposal, PRIMO CORP will take 250 Hectares of forest land for lease and convert it into tourist village without destroying the ecological balance, where the tourists can visit and experience real forest life. PRIMO CORP aims at more revenue, and profit for the Company and the Government and more job opportunities for the people of TREELAND.

TTP Government permitted the proposal of PRIMO CORP based on that the company had made some initial investments in the TREELAND by spending some potential amount of money. The marketing wing of PRIMO CORP worked round the clock to get the attention of the world for this grand project and eventually they succeeded in the same. Many global entities and companies had communicated their enthusiasm for partnering with this venture.

The involvement of PRIMO CORP and the silent permission of the TTP Government had provoked the people of TREELAND. They feared that this project will destroy their peaceful lives which are deeply rooted in the forest. In the aftermath of this, the state of TREELAND witnessed a massive protest from the people. The united strength of the people had managed to make the TREELAND state stand still. They managed to make their voice reach the representatives of the government and the activities of the government were affected. The TTP Government had no other choice than to withdraw the permission given to the PRIMO CORP.

PART E

During the progress of all these incidents, the TREE PEOPLE approached the Supreme Court of PRIMADOR challenging the PFCDA alleging that the said Act violates the basic fundamental rights of people of TREELAND.

Also, traditional practitioners of ALO-VEDA also filed a petition before the Supreme Court of PRIMADOR challenging the constitutional validity of Section 16 and Rule 4 of PFCDA.

Also, PRIMO CORP had approached the Supreme Court and filed a petition against the TTP Government alleging grave and unruly violation of PFCDA.

Numerous petitions were filed before the High Court of TREELAND against the PFCDA. The Supreme Court of PRIMADOR had clubbed all the petitions, both filed in the Supreme Court as well as the High Court of TREELAND together and posted them for a joint hearing.

Note:

- The laws in PRIMADOR are in *pari materia* with the laws of India.
- The Moot Proposition is strictly hypothetical.
- The Supreme Court of PRIMADOR is urging for a joint hearing and the question of maintainability is also an issue.
