Preamble:

A virtual online 3-day certification programme on Entrepreneurial Skills on Geospatial Data Management was organized by Centre for Remote Sensing & GIS (CRSGIS), Department of Civil Engineering, and School of Infrastructure jointly in collaboration with Crescent Innovation and Incubation Council (CIIC) from 23.02.2022 to 25.02.2022 through Microsoft Teams platform. The eminent speakers from academic institutions like IIT, Anna University, VIT and the speakers from various GIS industries delivered a lecture on their key areas of interest in Entrepreneurial Skills on Geospatial Data Management and its real time applications. This certification programme mainly focused on the various entrepreneurship skills in Geospatial Data Management with the help of open source GIS software.

Meeting URL for the certification programme was

Bhuvan Panchayat Ver 2.0
Empowering Panchayats for Reshaping Economy, Society and Environment

- A web based portal to facilitate "Decentralized Planning" at grass root level
- Facilitates archival and dissemination of 2.5m color satellite images and 1:10000 scale thematic data
- Spatial and non spatial information assisting the development activities of the local bodies
- Provides detailed information regarding Climate, Census Household Amenities and Population data
- Area profile reports in different chapters
- Integration of SAANIHI (Saansad Aadarsh Gram Yojana) Panchayats

FEATURES

- Planning window for citizens & PRI
- Inventory of Assets across the Nation
- Planning option from 17 Centrally Sponsored Schemes and other schemes
- Dissemination of spatial & non-spatial information to Citizens, PRIs & Stakeholders

MODULES

- Area selection
- Area Profile Report
- Asset Mapping
- Activity Planning
- Implementation & Monitoring
- Download Reports

Ambattur Lake - Encroached Area 2016

Legend
 Ambattur Lake - 1972 Boundary

1. Waste water is connected to the lake through canal like structure, which make flooded water to move in lake
2. Sewage Water is directly dumped in Upper part of the lake
3. Solid Waste is dumped near lake area.

WEBINAR REPORT

" Green Built Environment - need of the hour"

26th May, 2022

Organized by Department of Civil Engineering, School of Infrastructure

Introduction

A virtual online webinar on “**Green Built Environment - need of the hour**” was organized by Department of Civil Engineering, School of Infrastructure on 26.05.2022 from 10.00 a.m to 11.15 a.m. through Google Meet video conferencing. Dr C. Velan, City Head – Chennai Operations delivered the lecture for the faculty members and first year M.Tech. (Structural Engineering) students of Department of Civil Engineering.

Meeting URL for the webinar: <https://meet.google.com/xak-syuo-bez>

About the speaker:

Dr C. Velan

Dr C. Velan was graduated in Civil & Structural Engineering with a Post-Graduation in Business Administration, as well as Ecology & Environment. He has a Ph.D Degree in Civil Engineering and for the Research work, mainly focussed on an area “Sustainable Design of Green Buildings”. Dr Velan has more than 30 years of corporate experience with blue chip Indian & Overseas companies that include, Eicher Motors, Colorchem, CB Richard Ellis and Ascendas. He has presented and published various papers both in National and International Journals & Conferences.

The contents delivered in the webinar are listed below:

The Main highlight of the Webinar was about the Benefits of Green Building. The most important benefits of Green Building are as follows:

- It is Profitable, cost-effective and good for the economy,
- It focusses on Prioritizing people's health and well being
- It gives an Environmental Solution

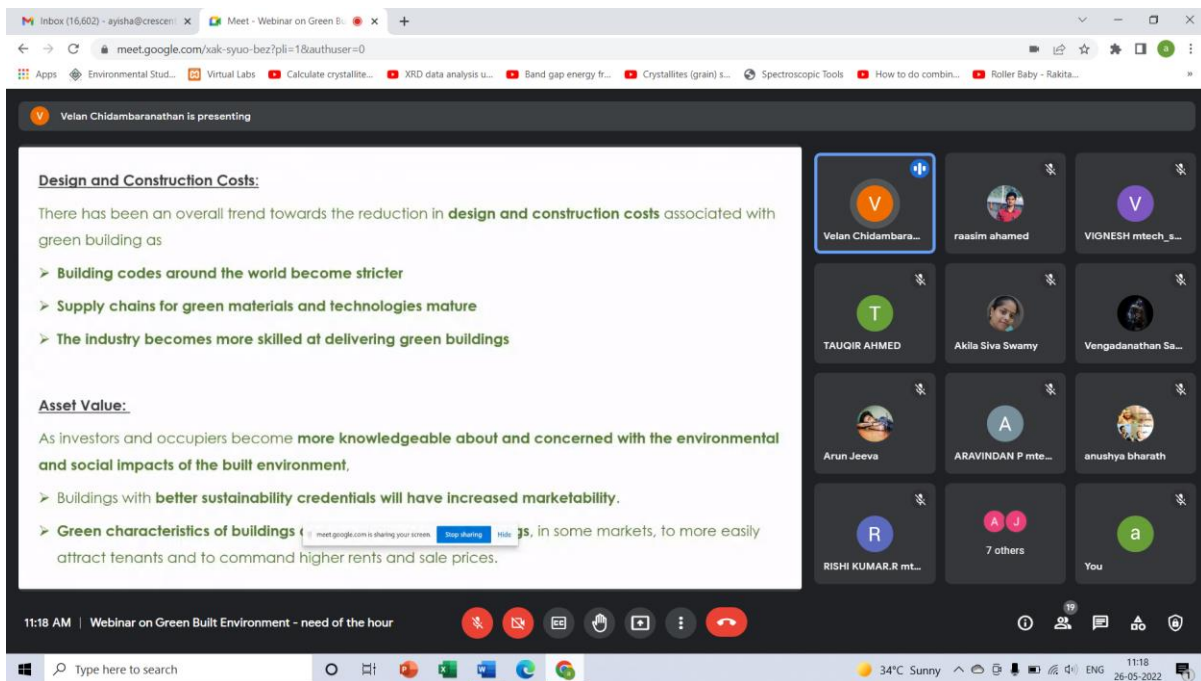

It is essential to note some of the important aspects towards Green Building. There has always been a reduction in design and construction cost associated with green building. The investors and occupiers become more knowledgeable about and concerned with the Environmental and social impacts of the built Environment. Green Building has shown to save money through reduced energy and water consumption and lower long-term operations and maintenance costs. There is an emerging body of evidence suggesting that the physical characteristics of buildings and indoor environments can influence worker productivity and occupant health and wellbeing resulting in bottom line benefits for businesses. Thus, it is always beneficial to implement green buildings as it contributes towards sustainability by working towards social, environmental and economical aspects of the building.

The total number of participants who attended the first session of the webinar is 20 which includes 19 students. The following are the details of the participants.
