Technical Support For The Community

Automatic Water Tank Level Controller

The Institute support water conservation off campus. The Institute is constantly involved in developing technologies that are aimed to reduce the issues related to water and also to improve its conservation. Research are being conducted by the students and faculty of the Institute in developing sensors, ROBO, etc for various purposes such as water body restoration, reduce the water spillages from sources. The service of the developed technologies is extended to the local community also for supporting water conservation. Some of the initiatives taken by the Institute are given below

- To be a primary support to the rurally backward society by creating innovative and needy technical projects, the students of ECE have developed a controller to reduce water wastage. In order to avoid wastage of water due to overflow from the school water tank an 'Automatic Water Tank Level Controller' was completed by Mr.J.Prasanna, Mr.S.Ganesh and Mr.K.Lokeshwaran of ECE (2016-2020 batch) under the guidance of Mrs.K.IndiraGandhi,AP[Sr.Gr]/ECE.

Donating Automatic Water Tank Level Controller' to School

Robo for Pond cleaning

Afrin, Aravind Kumar, nishanth Fathima, students of the Institute developed “An efficient ROBO for Pond / Lake Cleaning”

NATIONAL LEARN ABOUT BUTTERFLIES DAY

National Service Scheme (NSS) and Youth Red Cross (YRC) of B.S.A. Crescent institute of Science and technology celebrated National Learn About Butterflies Day on March 14th, 2022 in Arignar Anna Zoological Park - Vandalur Zoo, Chennai Tamilnadu. Mrs. Shankari Padmanaban, Conservation Educationist guided the entire students team and gave a complete information about the Butterfly Park.

Nearly 60 students of BSACIST visited Butterfly Park of Vandalur Zoo. Butterfly Park with nectar, host plant gardens and indoor conservatory has inspired the students. The indoor conservatory was in the shape of caterpillar. A photo gallery, larval rearing lab and pupa rearing lab have also been established inside the indoor conservatory. The two nectar gardens and three host plant gardens have been planted with nearly 200 species consisting of trees, shrubs, herbs, climbers, grasses, palms and reeds. Suitable signage boards have been erected along the walk paths depicting the details of life history, ecological role, behaviour, butterfly, gardening, butterfly watching, photographing butterflies etc.,
