### Industrial Visit to RETECH LASERS

The Industrial Visit to **RETECH LASERS** on 25.07.2024 started around 10 am. 153 Students of III year, BCA (CTIS), B.Sc (Computer Science), and II year BCA (AI) accompanied with Staff In-charges, , **Dr.N.Parvin** , **Dr.I.Parvin Begum** **E.Manogar**, **Dr.S.Jeevitha** reached Retech Lasers at Varadharajapuram, Chennai around 10.30 am. We had a warm welcome and a great dialogue about the company and its process. Basically this is one of prominent startups, and specializes in the manufacturing of cutting-edge machinery powered by laser technology as well this company actively involved in the concurrent design and development of software **Plotspot** which is incorporate with programming language C & C++ with Python. Professionals from **RETECH LASERS** addressed the students.

Following were the experience and knowledge gained during the visit.

- Serve as a platform to explore potential career path
- Software C , C++ and python was explained
- Students gained the knowledge of Real-Time Python and C++ Projects and Microcontroller.
- Students are gained an insight into the internal working of companies in the corporate world.
- Students got the change to learn practically from theoretical knowledge through working method and employment practices in large industries.
- Hence, Industrial realities are opened to the students through industrial visits.

The Industrial Visit finally ended at 1:30 PM after which students and staff returned to college at 1.50 pm.
