

INDUSTRIAL VISIT REPORT

II B.COM. (HONS)

[AY: 2023-24]

**FEBRUARY 21, 2024
(WEDNESDAY)**

DEPARTMENT OF COMMERCE

**B.S. ABDURRAHMAN CRESCENT INSTITUTE OF
SCIENCE AND TECHNOLOGY**

VANDALUR, CHENNAI - 600048

Introduction

Industrial visit has its own place of importance in a career of a student who is pursuing a professional degree course like B.Com. (Hons) with ACCA. In fact, it constitutes a part of core course curriculum taught at the institution. The objective of an industrial visit is to provide the students an insight regarding the internal working of companies. Today, we all perfectly understand that theoretical knowledge is just not enough for a successful professional career. It is here that by going beyond academics, industrial visit provides students a much relevant practical perspective of the actual work place and the larger world of business. All this makes the importance of Industrial visits all too evident, especially for students pursuing a professional degree.

In the above context, the department of Commerce conducts Industrial Visit for all of its students. Hence, it is decided to send all the students of B.Com. (Hons) to a business firm named Lucas TVS, Puducherry located approximately 150 kilometer from the university campus for the purpose of industrial visit.

Objectives

- To bridge the gap between theoretical learning and practical exposure by giving students first-hand exposure
- To identify the inputs and outputs of business operations and processes performed at the workplace.
- To enhance their skills and professionalism at their place of working in future.

In this connection, the Department of Commerce conducted an Industrial Visit for the students of II B.Com. (Hons). The students brought to Lucas TVS, Puducherry for the whole day on 21st February, 2024.

List of Faculty accompanied

1. **Dr. Sibghatullah Nasir**, Assistant Professor (Sr. Gr.), Department of Commerce
2. **Dr. Radhika R**, Assistant Professor, Department of Commerce

Profile of the Company

Lucas TVS

Lucas TVS, established in 1962, is a leading provider of mechatronic solutions for automotive, consumer and industrial goods companies, with over 50 years experience in design, manufacturing and supply of products to OEMs in India and abroad. With a work force of over 6,000 people and state of the art engineering and manufacturing facilities integrating TQM, TPM, 6 sigma and lean manufacturing principles. Lucas TVS has end to end product development capabilities.

The company has plants in India and a global network with sales and sourcing offices in USA, China, South Korea, Japan and Germany

Lucas TVS, Pondicherry is also the manufacturing bentone burner ignition electrode, burner ignition electrodes & electronic ignitor series.

A Brief Report

The group of students started from the university campus at 7.30 am in the morning under the supervision of Dr. Sibghatullah Nasir and Dr. Radhika R in a well condition bus. The students travelled through the ECR road. At 9.00 am, they stopped on the way at a restaurant for having their breakfast. After that left for puducherry at 9.30 am and reached there at 10.30 am.

The visit of the company was scheduled at 2:00 pm, so the students went to the heritage walk near rock beach, a famous tourist spot at Puducherry. They spent almost one hour there, got refreshed and assembled at a big restaurant for having lunch at 12.00 pm. After finishing of the lunch all of them started for Lucas TVS plant at 1:00 pm, reached to the destination at 2:00 pm.

There at the plant a warm well come is done by the Mr. Vishnu Prasad, a senior official of HR department. For few minutes we stayed at training centre where they showed us the profile of the company and its various manufacturing and operations through PPT presentation. After this all students brought their manufacturing units to see and observe the manufacturing process done by the skilled employees.

After the visit of all four units of manufacturing, the students brought to the finance and HR department to understand the financing, budgeting and working capital management as well as the process of recruitment and promotion and other activities related to human resource management. Throughout the visit of various department of the plant, Mr. Vishnu Prasad and other executives

were there with us and gave their full support and guidance that was very helpful in understanding the skills and observations. At last, the HR department offered refreshment and tea to all students.

The students spent almost three hours at the Lucas TVS plant. They started their return journey to Crescent campus at 5 pm. Without taking any stop on the way we reached safely to the Crescent campus by 7:45 pm in the evening. Some of the students got down on the way for their home. Remaining students came to the campus and then left for their hostels and home. In this way the worthy visit of industry came to an end. All students were happy and feeling cherished for the practical exposure they got during the visit.

Dr. Sibghatullah Nasir and Dr. Radhika R took care the students, right from the preparation of the blueprint of the I.V. till the visit of the plant with their full dedication for which they got lots of appreciation from the students as well as from the department.

Outcome of the Industrial Visit

- The participant students got a practical exposure of business operations and processes performed at the workplace.
- The students learn how to perform financial management and human recourse management in practical life.
- The students discovered overall the essential skills which are required to perform and deliver at work place with full potential.

Conclusion

The industrial visit was fruitful and full of information, exposure and valuable ideas for the students. It was a horizontal travel to Puducherry by bus going from one route and returning from other. The students showed their satisfaction after finishing of the visit. Also with this industrial visit, the students enjoyed one of the best locations of Puducherry, the Heritage Walk at rock beach. Overall it was a nice experience in terms of learning with joy and pleasure.

TESTIMONIALS FROM THE STUDENTS

"Our recent visit to Lucas TVS in Pondicherry offered us a rare glimpse into the operations of a leading automotive component manufacturer.

In conclusion, our industrial visit was transformative, broadening our horizons through exposure to cutting-edge technology and insights from industry professionals.

We extend our sincere gratitude to the team at Lucas TVS for generously sharing their expertise."

II B.Com (Hons)

I am writing to express my profound gratitude and share my insightful experience from the industrial visit to the Lucas TVS Plant in Pondicherry, which took place recently. This visit was not only an educational journey but a practical exposure to the intricate processes involved in manufacturing parts for the automotive industry.

The knowledge and insights gained from this visit have greatly enhanced our understanding of the automotive manufacturing industry and have undoubtedly contributed to our academic and professional growth.

I extend my heartfelt thanks to the management and staff of Lucas TVS, Pondicherry, for their warm hospitality and for providing us with an enriching learning opportunity.

Myself Saferulla, a student of B. Com honors second year, visited Lucas TVS at Pondicherry on 21st February 2024.

We were got the experience of gaining hardworking and smart working and knowledge of electronics and motors of the vehicles and household commodities. The place was full of the working motive and punctuality maintenance.

As a students, we learned about dressing sense and discipline and communication and the assembling of motors of bikes, cars, machines, household properties, etc....

The company made us to know about not only working for the company but also for the employees who work inside. The environment around the company and the staffs who were working were friendly and comfortable to understand what they were doing.

Thanks to all who made this industrial visit ad knowledgeable and interesting. Thank you

II B.Com. Hons.

My experience at Lucas TVS is great and memorable

It's an opportunity for us to see and experience real workstations, plants, machines, systems, assembly lines, and interact with highly trained and experienced personnel.

And in this pitch as commerce students, it's helpful for us to learn more about finance, marketing human resource, taxation, banking etc...

Specially we learnt new technologies like output monitoring board through which we can monitor the output of the products and find defects, and product that are yet to be made.

On the whole, this industrial visit was an eye - opening experience!!
