Classic Crescent

The '90s was the decade when Crescent campus took a giant leap. We introduced new departments, bus services, and hostel facilities on the campus. Back then hostel used to be at Selaiyur, Wahab building. Then we came to our campus area. Hostel for hundred boys and our hostel food was always well known. We made sure we hired the best cooks and quality is maintained always. Only five girl students stayed at the girl's hostel but we had six resident tutors to look after them. Many requested for bus service since there was only a limited bus facility available. We introduced bus service by hiring buses from Parveen Travels and V.M Motors. Later we started to purchase buses one by one. Computer Science and Engineering, Electronics and Communication Engineering Department were all introduced. The strength of students and staff increased drastically. In the year 2000, Arabic college was started. We celebrated our Founders 75th Birthday in Kamarajar Arangam in the year 2002. We felt a need for a similar auditorium on our campus, hence in the year 2003, we started the construction of our Auditorium. The inauguration of the auditorium took place in the year 2004 with the wishes of Justice Ibrahim Khaleefullah.
