BA DEGREE IN PUBLIC POLICY, WITH FORMER IAS, IPS OFFICERS AS MENTORS, IS BUILT FOR UPSC ASPIRANTS

A new three-year undergraduate degree in Public Policy where retired bureaucrats specially train you to take on various competitive exams and to understand what a life in public service entails. It was launched on Wednesday by Chennai-based Crescent Institute of Science and Technology. The course promises students an insider's view by getting on board retired or serving officials from Indian Administrative Services, Indian Police Services and Indian Administrative Services. Our university will be taking in 121 students this year and the intake may increase from the next academic year depending on the response. There is no entrance test, however, and applicants will have to give an interview. Even though the course is designed for students to appear for civil services, they are also allowed to sit for on-campus placements. The fee for the course differs on the basis of marks earned in the qualifying Class 12 examination.

VIRTUAL PROJECT EXPO

The Department of Electronics and Communication Engineering, B.S.Abdur Rahman Crescent Institute of Science and Technology has organized "Virtual Project EXPO'2021" for the Final year students ECE/ EEE/ E&I/ I&C or any Equivalent program on June 26th, 2021, in online mode. Around 22 teams participated each team consisting of max 4 members. Four Panels were arranged parallelly from 10:30 to 12:30pm where in the panel members were faculty members of ECE department, Mr.Sadhish Prabhu, Ms.R.Anitha, Mr.Selvakumar and Dr.Jean Shilpa V who evaluated a group of 5 batches each. The criteria for evaluation were based on presentation, innovation, demo and Question and answer sessions. The groups scoring the highest marks were awarded first, Second and third places where in a gift amount of Rs.2000 was sanctioned for the same.

Classic Crescent

1. What was your first impression of the campus?

My batch was almost 20 years ago, it was 2001 when stepped in the campus. It was really a vast campus with greeneries and sidewalks at those times. The campus itself was really appealing.

2. What was your favorite spot at the campus?

My favorite spot is the cafeteria and the banyan tree. All my friends didn't do the postgraduate degree with me so, during the break times we used to sit near the banyan tree and spend time as the same group we were in our undergraduate degree.

3. Do you Miss Crescent?

Obviously. I miss crescent we had excellent memories, definitely I miss my time in crescent.

4. Who is your favorite staff?

My favorite staffs are Mrs. Aisha mam and Mr. Rab-bani sir. They both were really supportive and helped me to outcome my obstacles.

5. Best part of college days

Was when I organized the culturals in the final year, it was a grand success and I had a great experience while organizing.

6. Most memorable and happiest moments at the campus

My final year result was memorable because I was not a studious student during the starting of the course but towards end because of teachers help and motivation I got more than 80% in my academics.

7. Best thing of Crescent.

The discipline in the university is my favorite aspect about crescent. As a student I didn't like it but now it has shaped me well for my professional life.

8. Which stream did you choose in our college? What inspired you to choose it?

Those days IT and computer sector were the upcoming industry and I already had vision to be a software engineer, to write and create programs. So that is the reason why I chose this stream.

9. Crescent- Then and Now

Those days our university was affiliated by Madras University, then it was under Anna University and now over the period it has become a university by itself. As a student of this university, I am proud to see this growth.

10. what is your favorite sport?

My favorite sport is cricket, even though I don't play much I motivate my fellow mates to play well so my friends always take me with them as I am the motivator.

11. What is your favorite hobby? And can you please talk about your aim and passion?

At this moment I don't have any hobbies, but I have vision to establish a company which will benefit to the community on a whole.

12. How was your fresher's day?

Fresher days was a good one mostly the students would be ragged but me being a last bench student and I was in good terms with my seniors, I was not ragged.

13. Were you in clubs during your college days?

There was no formal club those days so we used to have informal clubs like badminton, table tennis and snooker. We just have our own clubs play together and chit chat with our friends.

14. How was your experience during the 1st and last day of our college?

The pathway which I walk to the college was really long one I had doubted that how I would walk this path on daily basis but after some time passed as we would together would chit chat and walk. My last day experience was really sad because I was going to miss this beautiful place in which I have made great friends, met wonderful staffs. The university taught and prepared us for the professional life. It was really difficult to move on but still being practical we need to move to get to the next stage in our lives.
