Industrial Visit to Kaynes Technology India Pvt Ltd in Mysore

Department of Computer Applications

From 20/10/2024 to 22/10/2024, 47 students from B.Sc (Computer Science) - V- Semester visited “Kaynes Technology India Pvt Ltd” in Mysore. The visit aimed to gain firsthand knowledge of the company's operations, understand their processes, and engage in practical learning experiences.

Objectives:

- To gain insights into the company’s history, mission, and core values.
- To observe and understand the production and manufacturing processes.
- To interact with employees and learn about their roles and responsibilities.
- To identify real-world applications of theoretical concepts learned in class.

Observations and Findings

- Upon arrival, we were greeted warmly by the company's representatives, who provided an informative overview of Kaynes Technology's history and operational framework.
- The production process was particularly captivating. we witnessed how raw materials are meticulously transformed into finished products.
- We had the opportunity to learn about the quality control measures that ensure high standards and the safety protocols that are strictly adhered to in the workplace.
- Engaging with employees was a highlight of our visit. They shared their professional experiences and offered valuable advice, enriching our understanding of the industry.

The industrial visit to Kaynes Technology India Pvt Ltd was an enlightening experience that significantly enhanced our comprehension of the company's operations. We gained practical insights into the application of our theoretical knowledge in real-world contexts, which deepened our appreciation for the field. The opportunity to learn directly from industry professionals was invaluable, and we are eager to apply the knowledge gained in our future studies and careers.
