PSYCHOLOGICAL INTERVENTION AND COUNSELLING CONSENT FORM

The Crescent Counselling Centre

We are a licensed counselling centre with psychologists who have several years of experience specializing in various psychological diagnoses, assessments and therapeutic counselling processes. We value our relationship with our students and clients and believe that such a relationship is the beacon in the healing process. We believe that each individual is unique and has their own way of addressing resolutions. Thus, we believe in a wellness model that helps our clients empower themselves by focusing on what works for them and not on a systematic approach that provides a generic procedure for working on a treatment. One's journey is not the same as the other.
