

Department of Mechanical Engineering

B. Tech.

MECHANICAL ENGINEERING

**ADMISSIONS OPEN
2025 - 26**

with Minor Degrees in

- Artificial Intelligence & Machine Learning
- Block Chain
- Cyber Security
- Data Science
- Virtual & Augmented Reality
- Sensor Technology
- Internet of Things (IoT)
- Industrial Automation
- GIS and Remote Sensing
- Computational Biology

CNC Turning Center, Vertical Machining Center and 3D Printer

CAD Lab

ROBO lab

Coordinate Measuring Machine

Professional welding Lab

Students Testimonials

Mohamed Naseem AM (2021-25)

The Department emphasizes industry readiness through workshops, projects, and internships, which have significantly boosted my confidence. I am proud to share that I have secured a placement at LTTS and wholeheartedly credit the department for fostering a supportive environment.

Muhsin AR (2021-25)

The Department encourages students to join professional societies like ASME, SAE, and ISHRAE, offering free memberships to those interested. This initiative has provided me with valuable opportunities for industry exposure and hands-on learning.

Alumni Testimonials

Mohammed Suhail (2019-23)

I have found tremendous fulfilment beyond academics. Serving as the President of the SME Club and Vice President of the SMS Club at Crescent allowed me to actively contribute to the vibrant campus life beyond the curriculum. (Working at Ti India)

Farhan Nadeem (2017-21)

The Department helped me to develop leadership skills, management skills and team work. The infrastructure in the institute is one of the finest in Chennai. The notable features of this institute, are its faculty, academics and excellent lab facilities. My four years in Crescent had been a wonderful learning experience and I got placed in EMERSON Ltd, Chennai through the campus interview.

Alumni Start-ups

Shaik Mandem Sufiyan (2022 - Batch)
Pristyn Automation Pvt. Ltd.

Radhakrishnan Jothiram (2017 - Batch)

Rekindle Automation Pvt. Ltd.

P. Dev Anand (1992 - Batch)
Kankyo Bert Pvt. Ltd.

Kankyo Cleantech India Pvt. Ltd.

Salient Features

- 40 Years of Excellence
- Innovative Teaching Methodologies
- Industry Ready Laboratory Practices
- Specialized Labs such as
 - Dassault Systemes Centre of Excellence
 - Robo Lab 4.0
 - Design Appreciation Lab
 - Surface Engineering Lab
 - Friction Materials Lab
 - Professional Welding Lab
 - Project Lab, etc.,
- Special Lectures by Affiliated Faculty from Industry / Abroad
- Value Added Programs by Eminent Industries / Companies
- Courses on Leadership Skills and Social Entrepreneurship
- Minor Degrees in the Emerging Technologies
- Attachment with Industry for Project Work
- Two Mandatory Industry Internships
- Research Mentoring
- Skill Training and Placement Assistance

Entrepreneurship Support

Through Startup Ecosystem

Association with Industries (MoUs)

Industry Internship

Value Added Programmes

- Robotics With NSDC Certification
- CATIA 3D Experience Basics & Advance Modules by Dassault Systemes

Representative Companies Offering Campus Placements
