Industrial Visit to CloudLogic Technologies Private Limited, Puducherry

The Industrial Visit to CloudLogic Technologies Private Limited on 17.04.2025 Started around 7.30 am. 88 Students from II-year BCA (AI), BCA (CS) and B.Sc (CS) accompanied with Staff In-Charges Dr. E. Manogar, Dr. S. Peer Mohamed Ziyath, Dr. S. Jeevitha and Ms. K. Sameera reached at CloudLogic Technologies, Puducherry around 12.00 pm. The visit was organized to give students insight into the company's software development practices, AI-related projects, and cloud-based technologies. Company representatives gave a briefing about the organization's structure, ongoing projects, and the role of AI and cloud technologies in current industry trends.

Objectives:

- To understand the company's history, mission, and values
- To provide students with firsthand exposure to the work culture, operations, and technologies used in an IT company.
- It aimed to help students understand the practical applications of their coursework in a real-world professional environment.

Learning Outcomes:

- Understood the basic operations and project management in an IT company.
- Gained exposure to cloud computing and artificial intelligence applications.
- Learned about career opportunities and skill requirements in the IT sector.
- Experienced real-time software development and deployment processes.
