To get to know one another, the team played two games. First, we played a game called "two truths only" in which a player makes three statements, one of which is incorrect. The others make a guess of the incorrect statement. Learning more about the folks made it intriguing.

We then played a teambuilding exercise called "FL YINGBALL" to strengthen our bonds as a group. Here, each team member should use their finger to carry the ball. The team players displayed their team spirit throughout the entire game with such fervour. The main goal is to create a strong squad and inspire everyone to actively participate in the upcoming activities.
