Outcome:

The National level technical symposium served as an avenue for students to explore their managerial skills in handling events and also coordinating with fellow students who participated from different colleges. Preparation for technical events such as technical quiz etc exposed the students to the concepts of various civil engineering domain. The events such as CADD masters have given an opportunity to explore the concepts of sustainability in civil engineering designs etc. Overall, the conduct of symposium was much appreciated by all the participants from other colleges / Institutions.
