

# SCHOOL OF COMPUTER, INFORMATION AND MATHEMATICAL SCIENCES DEPARTMENT OF INFORMATION TECHNOLOGY

#### A Report

### Tech Fusion 2025 - National-Level Project Expo

The Department of Information Technology at B. S. Abdur Rahman Crescent Institute of Science and Technology organized TechFusion '25, a National-Level Project Expo, aimed at fostering innovation and technological advancements among school and college students. The event served as a platform for young innovators to showcase their expertise in Artificial Intelligence & Machine Learning, Data Science, Mobile & Web Development, Cybersecurity, IoT & Robotics, and other emerging technologies.

The expo witnessed participation from students across 10 plus institutions, with over 43 projects presented, that addressed real-world challenges in key domains. Highlighting the expo, projects such as 'AI-powered sign language recognition platform,' 'Online Printing Platform', or 'Automatic Crypto driven bot' captured significant attention for their innovative approach and potential real-world applications.

A panel of industry experts and academicians evaluated the projects based on innovation, technical complexity, societal impact and novelty. The Panelists lauded the participants for their ingenuity and problem-solving skills, emphasizing the growing need for such technological innovations in the industry. The winners of the competition were honored with awards and certificates, encouraging them to take their projects to the next level.

The event concluded with networking sessions and knowledge-sharing discussions, providing participants with opportunities to engage with industry professionals. The success of the expo reaffirmed the university's commitment to promoting research, innovation, and technological growth in the academic and professional community.

Here's the website link <u>techfusion2k25.vercel.app</u> for an overview.

## **PARTICIPANTS LIST:**

	COLLEGE PARTICIPANTS
