

Executive Leadership Programme in Construction Project Management (CPM)

MRICS

5 letters that inspire confidence

The credentials MRICS signify a chartered qualification underpinning work of the highest standards in land, real estate, construction and infrastructure. It is valued by clients and governments as a global benchmark for integrity and professionalism necessary for market confidence.

Over 135,000 chartered professionals worldwide deliver confidence to markets by doing their job right the first time – with professional standards as the backbone. The qualification crosses borders and underpins standards

worldwide, providing a global career passport.

MRICS is awarded after successful completion of the Assessment of Professional Competence (APC)¹ – which depends on education and professional work experience.

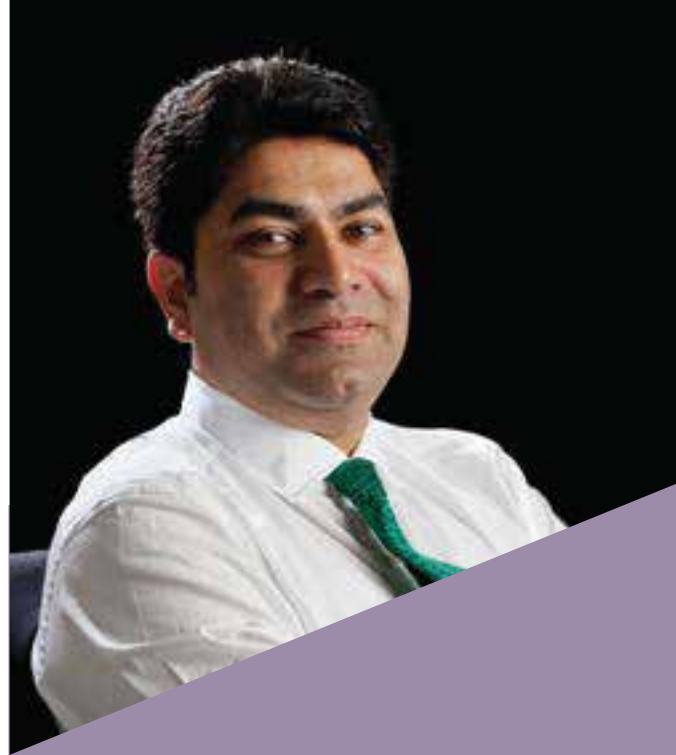

ELP has been designed using the APC¹ framework and is offered in seven specializations, all of which are aligned to MRICS pathways.

(MRICS is considered equivalent to an executive MBA in the middle east and Europe)

Who is the programme meant for?

The Executive Leadership Programme assists professionals in attaining the desired competency to earn the chartered qualification – MRICS.

This programme is apt for mid-career professionals (minimum of four years experience) who wish to initiate the journey of gaining the globally recognized chartered qualification for built environment – MRICS. Since the primary objective of ELP is to work towards MRICS, the eligibility and enrolment process is governed by the requirements for MRICS.

"RICS is a 150 year old massive global body. Given its presence in 146 countries, its footprint across the world is unmatched. That helps disseminate best international practices, ideas and innovation in Indian industry."

Anshuman Magazine FRICS
Chairman & CEO - India, South East Asia,
Middle East & Africa, CBRE

Eligibility

Enrolment to this programme will be guided by the pre-requisites for MRICS in the chosen pathway. Required education background and minimum work experience (ie four years in the relevant domain) will be applicable, in case you wish to start your journey towards MRICS – by simultaneously enrolling for APC.

Executive Leadership Programme in Construction Project Management (CPM)
